Senior Frontend Engineer with 4+ years of experience building scalable, high-performance web applications using AI, React and modern JavaScript. Proven track record of leading frontend development, optimizing application performance, and mentoring junior engineers. Experienced in delivering SaaS platforms and enterprise-grade banking solutions for international clients. Passionate about creating clean, maintainable architectures and improving user experience through efficient, scalable design.

EXPERIENCE

NOV'25 TO PRESENT

SENIOR SOFTWARE ENGINEER

HIQAIN (DESIGN SPARTANS), KARACHI

- Lead frontend development for client-facing applications using AI and React, ensuring scalability and maintainability
- Provide technical leadership and mentorship to junior developers, improving team productivity and code quality
- Architect and implement reusable, modular components to accelerate development across projects
- Collaborate with cross-functional teams to deliver high-quality solutions aligned with business requirements
- Leveraged AI-assisted development workflows in VS Code to optimize frontend performance, accelerate delivery time, and enhance code quality through intelligent automation and modern engineering practices.
- Optimize application performance and responsiveness across multiple devices and browsers.

JUL'24 TO JUNE'25

SOFTWARE ENGINEER – ASSISTANT MANAGER (OG-I)

BANK ALFALAH, KARACHI

- Developed and maintained internal banking dashboards using React, and Artificial Intelligence, improving UI consistency and reducing user-reported issues by 30-40%.
- Collaborated with cross-functional teams to implement reusable UI components, and integrated AI in their codebase.
- Optimized frontend performance, using component-based architecture, AI and resolved UI bugs to improve user experience

MAR'24 – APR'24

SOFTWARE ENGINEER – FRONT END DEVELOPER

WEBNET PAKISTAN, KARACHI

- Developed responsive and optimized frontend modules using React, HTML, CSS, and JavaScript
- Delivered UI solutions for corporate clients, ensuring responsiveness and cross-browser compatibility

JUL'21 – AUG'24

SOFTWARE ENGINEER

CARTE BLANCHE INNOVATION INTEGRATED

- Led frontend development of SaaS product “Hirecinch” using React.js and Redux
- Mentored junior developers, reviewed PRs, and enforced frontend best practices
- Improved application maintainability by refactoring legacy components
- Wrote unit tests and collaborated with QA to ensure UI/UX quality

JUN'20 – OCT'21

TEACHING ASSISTANT

PUCIT - LAHORE

- Assisted in teaching Computer Networks and Network Security courses
- Supported students in understanding complex technical concepts and practical implementations

PROJECTS

HIRECINCH | CARTE BLANCHE INNOVATION INTEGRATED

- Led frontend development using React, Redux, Tailwind, and Material UI
- Built scalable and reusable UI components for rapid feature development
- Improved application performance and maintainability through architectural enhancements

NUVIEW TREATMENT & PHOENIX BATTERY | WEBNET

- Designed and customized user interfaces using HTML, CSS, and JavaScript
- Ensured responsive and visually consistent designs across devices

WEBSITES FOR CLIENTS | DESIGN SPARTANS (HIQAIN)

- Developed responsive business websites for international clients using AI and coding
- Delivered high-quality UI/UX implementations aligned with client requirements

RENT A CAR SYSTEM | FINAL YEAR PROJECT

- Designed and developed a full-stack web application
- Implemented core business logic and user interface

BOOK BUY AND SELL | WEB DEVELOPMENT PROJECT

- A Web-based Application developed using Java, HTML, CSS, and JavaScript.

ANDROID APPLICATIONS | JAVA

- Drug addiction counseling application and Flip Flop mobile game.

EDUCATION

BACHELOR OF INFORMATION TECHNOLOGY

Punjab University College of Information Technology (PUCIT)

2017 – 2021

CGPA: 3.4 / 4.0

SKILLS

TECHNICAL:

- Front-End Development: React.js, HTML5, CSS3, JavaScript, Tailwind, MUI, Redux, Saga
- AI: AI- Assisted Development, AI Workflow optimization, AI Powered code generation.
- Web & Mobile Technologies: WordPress, Android (Java), .NET
- Testing & QA: Manual & Automation (TestProject), Unit & Integration Testing (React Testing Library)
- Tools & Platforms: Android Studio, GitHub, Claude ai, ChatGPT, GitHub Copilot, Pycharm, Webflow, Visual Studio, Canva, Lucidchart
- Content Creation: Technical writing and blogging on software and development topics
- Soft Skills: Team collaboration, mentorship, deadline management, critical thinking, client communication
- Certifications:
 - AI, JavaScript, React, HTML, CSS (SoloLearn Certificate)
 - Agile Meets Design Thinking (Coursera Certificate)
