

ZOHA NADEEM

Senior Frontend Engineer | React.js Developer | AI-Assisted Development

03164108641 | zohanadeem45@gmail.com | Karachi, Pakistan | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 4+ years of experience building scalable, high-performance web applications using React.js, Next.js, JavaScript, and AI-assisted development workflows. Experienced in leading frontend development, architecting reusable component systems, optimizing performance by 75% through optimized state management, and mentoring junior engineers. Delivered SaaS platforms, enterprise banking dashboards, and client-facing applications for international and local teams, with a strong focus on maintainable architecture and responsive user experiences.

PROFESSIONAL EXPERIENCE

Senior Software Engineer | HIQAIN (Design Spartans), Karachi, Pakistan

Nov 2025 – Present

- Lead frontend development for 20+ client-facing applications, building 100+ responsive screens, using React, Next.js, and AI-assisted development workflows, ensuring scalable and maintainable solutions.
- Provide technical leadership and mentorship to a team of 5+ junior developers, improving team productivity and code quality.
- Architect reusable, modular components to accelerate development across projects and maintain consistent UI patterns.
- Collaborate with cross-functional teams to deliver high-quality solutions aligned with business requirements.
- Optimize application performance and responsiveness across multiple devices and browsers, reducing user-reported issues by **30–40%**.

Software Engineer – Assistant Manager (OG-I) | Bank Alfalah, Karachi, Pakistan

Jul 2024 – Jun 2025

- Developed and maintained internal banking dashboards used by 1000+ employees, using React and AI-assisted development practices.
- Collaborated with cross-functional teams to implement reusable UI components and integrate AI into the codebase.
- Optimized frontend performance through component-based architecture and resolved UI issues to improve overall user experience, reducing page load time by 70%.

Software Engineer – Front End Developer | Webnet Pakistan, Karachi, Pakistan

Mar 2024 – Apr 2024

- Developed responsive and optimized frontend websites using React, HTML, CSS, and JavaScript.
- Delivered UI solutions for 15+ corporate clients with a focus on responsiveness and cross-browser compatibility.

Software Engineer | Carte Blanche Innovation Integrated

Jul 2021 – Aug 2024

- Led frontend development of the SaaS product Hirecinch using React.js, Next.js, and Redux.
- Mentored junior developers, reviewed around 500 pull requests, and enforced frontend development best practices.
- Improved application maintainability by refactoring legacy components and strengthening reusable architecture.
- Wrote 1000+ unit tests and collaborated with QA to maintain UI/UX quality.

Teaching Assistant | PUCIT, Lahore, Pakistan

Jun 2020 – Oct 2021

- Assisted in teaching Computer Networks and Network Security courses and supported 200+ students with technical concepts and practical implementations.

SELECTED PROJECTS

Food delivery app |AshriTech (NASTP) — Designed and implemented a food delivery application, with 5+ screens, in Flutter during course work at NASTP.

Hirecinch | Carte Blanche Innovation Integrated — Led frontend development using React, Redux, Tailwind, and Material UI; built scalable reusable UI components and improved application performance and maintainability.

NuView Treatment & Phoenix Battery | Webnet — Designed and customized responsive interfaces using HTML, CSS, and JavaScript, ensuring visually consistent experiences across devices.

Websites for International Clients | HIQAIN (Design Spartans) — Developed responsive business websites using AI-assisted coding workflows and delivered UI/UX implementations aligned with client requirements.

Rent a Car System | Final Year Project — Designed and developed a full-stack web application with core business logic and user interface, using Python, Html, Javascript.

Book Buy and Sell | Web Development Project — Developed a web application using Java, HTML, CSS, and JavaScript.

Android Applications | Java — Developed a drug addiction counseling application and Flip Flop mobile game.

EDUCATION

Bachelor of Information Technology | Punjab University College of Information Technology (PUCIT) | 2017 – 2021 | CGPA: 3.4 / 4.0

TECHNICAL SKILLS

Languages: React.js, Next.js, Flutter, JavaScript, Typescript, Python, SQL, HTML5, CSS3, Tailwind, MUI, Redux, Redux Saga

AI & Development: AI-Assisted Development, AI Workflow Optimization, AI-Powered Code Generation

Web & Mobile: WordPress, Android (Java), Flutter, .NET

Testing & QA: Manual & Automation (TestProject), Unit & Integration Testing, React Testing Library

Tools & Platforms: GitHub, Android Studio, Figma, Claude AI, GitHub Copilot, PyCharm, Webflow, Visual Studio, Canva, Lucidchart

Professional Skills: Technical Writing, Blogging, Team Collaboration, Mentorship, Deadline Management, Critical Thinking, Client Communication

CERTIFICATIONS

- AI, JavaScript, React, HTML, CSS — SoloLearn Certificate
- Agile Meets Design Thinking — Coursera Certificate
- Introduction to Mobile App Development — IBM/Coursera (In progress)
